 - Food 
 - Budget 
 - Excursions / Visit
 - Things to Pack

Todo

1. Mainly think about **how** to manage the plan, eg.:
 1. Option 1: 1st work, 2nd and 3rd off
 2. Option 2: 1st off, 2nd work, 3rd off
 3. Option 3: 1st off, 2nd off, 3rd off

I think the **Option 1** is the best.

2. Once decided this, then decide about **where** to rent the apartment for each week and/or if would be needed to **rent a car** or not.
3. Prepare the global budget, assess it, approve it and start to buy the flights and rent the apartments.
4. Save the dates in the office.
5. Check COVID restrictions and/or certificates.

Destination

Travel to **Mauritius Island** 🌞, 😎, 🌴, 👙, 🍹. Yuhuuuu!!!

Travel Requirements

- **Passport** must be valid for at least **6 months**.
- EU COVID Vaccination Certificates.
- Negative PCR within 72h.

Dates

In total, **three weeks**, from **Friday, 4th of March** to **Sunday, 27th of March** of 2022.

It is Mauritius' shoulder season, which means less humid, lower prices, less visitors, perfect for diving/snorkeling, but raining expected.

Weather

- [Reference 1](#)
- [Reference 2](#)

Average temperature in March:

- Day: 28° to 30°
- Night: 20° to 22°

It is the **wet session** so we should expect a lot of rains.

Plan

Vero's plan

Vero gets the **three weeks** of holidays, to enjoy running around the island 🏃...

Abel's plan

Abel gets **two weeks** of holidays and **one week** of working over there.

Abel can work from the Valid's office in the island or from the Apartment (in case Wifi is enough good).

Abel's office is in [NeXTeracom Tower 1 @ Ebene area](#).

Flights

Travel to Mauritius through Paris (CDG, Charles de Gaulle Airport).

1. Book the flight from CPH to CDG on **Thursday, 3rd of March @ 9h30**, one way, about **314DKK** with Easyjet. It arrives at **11h35**.
2. Book the flight with Air Mauritius on **Friday, 3rd March @ 16h20** to **Thursday, 24th of March**. This cost **712€**. [Reference](#). It arrives at 7h35 on 25 March.
3. The idea is chose flexibility to the Air Mauritius flights so we can decide when to come back to Paris and stay there some days.

Approximate budget is **6.000DKK**.

Accommodation

Following are the different options that we have now:

- Option 1: Close to the office (not in the beach):
 - 502€: 18 min to the office.
 - 433€: 23 min to the office.
 - 386€: 29 min to the office.
 - 731€: 20min to the office.
 - 601€: 30min to the office.
 - 962€: 2min to the office.
- Option 2: In the beach, in e.g. Albion, not so far way from the office:
 - 315€, 15min (or less) to the Beach, 20min by car to the office.
 - 758€, 20min (or less) to the Beach, 25min by car to the office.
 - **todo** find other options around this area.
- Option 3: In the beach, far from away the office (cheaper):
 - Flic en Flac:
 - ~~498€: 4min (or less) to the Beach, 40min by car to the office.~~
 - Excluded: No enough commodities, like washing machine.
 - North:
 - 355€, Closest beach doesn't looks nice?.
 - More North:
 - 415€, Close Beach, 45min (or more) by car to the office.
 - 468€, Close Beach, 45min (or more) by car to the office.
 - 472€, Close Beach, 45min (or more) by car to the office.
 - ~~441€, Close Beach, 45min (or more) by car to the office.~~

So the plan can be as following:

- **First week**, from 4th to 12th, renting this apartment close to office 172€: 18 min to the office.
 - So I can walk to work to the office.
 - But it is not close to the beach, so we have to see how/where we can reach the beach this week?
- **Second and Third weeks**, from 12th to 24th, 420€, in the Trou aux Biches, North

On average, the cost can be set in **600€ = 4.400 DKK**.

Requirements

- Wifi.
- Parking Area for the Car.

Transportation

Think how we are doing:

- From/To Airport
- Excursions / Visits
- From/To Valid Office (for visit or for working there one week).

Renting Car

One week of simulation from 4th of March (10h00) to 11th of March (10h00), in the Airport.

- 172€: OLA, Perodua Axia with GPS and Assistance.
 - This option for three weeks: 452€.
- 200€: Pingouin Car Rental, Kia Picanto with GPS.
- 314€: Europcar, Kia Picanto Automatic with GPS
- 330€: Sixt.Com, Kia Picanto with GPS.

Gasoline is cheaper than in Denmark. Adding some gasoline costs, on average, the cost can be set in **500€ = 3.800 DKK**.

Note: In Mauritius, they drive by the **left**.

By Taxi

- **Viator**. From/To the Airport about **350 DKK** (or less).

Food

Expenses in food can be the same, or cheaper than here in Denmark.

Budget

In the island they use the **Mauritian rupee** where **100 DKK = 668,96 MRU**.

Flights	12.000 DKK
AirBNB	4.400 DKK (three weeks)
Car	3.800 DKK (one week)
Extra Costs	3.800 DKK
Total:	24.000 DKK

So, we should pay around **12.000 DKK** by each.

Excursions / Visit

- Sailing, Diving
- **todo** find alternatives here.

Things to Pack

- Rain jacket, rain cloths.
